Thank you for your patience and understanding. Please stay safe and keep your health as the highest priority!

NEEDING A HOME

We are assisting one of our select employee groups, the Independent Cat Society (ICS), to find homes for loving kittens and cats. We can help our members add that extra amount of love into the family as only a cat or kitten can do. Every week, Allegius also posts a picture and profile for the "adopt a friend Friday" on our Facebook page.

As with every quarter, Allegius is working with the Independent Cat Society to highlight one cat that needs a loving home. Introducing Indy! Indy is very friendly, very social and he does well with other cats. His adorable look and handsome fur coloring makes him hard to pass up! The only thing he is missing is a family to call his own.

Additional details of Indy and other adoptable cats are available at www.catsociety.org or follow their Facebook page at [facebook.com/INCatSociety](https://www.facebook.com/INCatSociety). The ICS location is now at 4061 S. County Line Rd, Westville, IN 46391, with visiting hours on Saturday - 10:00 a.m. to 4:00 p.m. and Sunday - 1:00 p.m. to 4:00 p.m.

Allegius wishes to thank those members who have been so kind to adopt over 20 cats over the past 17 months. Be sure to post your new cat on your Facebook and tag us!!

**All applications are subject to a review process. The review helps find the best homes for the cats and gives you and your family a chance to carefully think about your decision.*

WATCH OUT FOR CORONA CRIMINALS

In a time of uncertainty and isolation we are all reaching for more information, especially from respected institutions such as the Centers for Disease Control (CDC), the World Health Organization (WHO) and respected hospitals and research facilities.

But unfortunately, cyber criminals are using the names of these institutions to lure unsuspecting individuals into fake offers, giving out personal information, and clicking on download links that can infect their computers. This can lead to fraud, identity theft and the loss of account information and passwords.

As with all things related to the coronavirus outbreak, it pays to be vigilant. In short, if you have accessed an online article, blog, or website that is not familiar and you don't feel 100% safe, do not click on offers or download documents, interactive maps or programs. This may be an attempt to introduce a malicious computer virus, ransom-ware or other programs into your phone, tablet or PC for the purpose of collecting your personal information.

If you click on a link and you are asked for permission to download, or give access to your photos, contacts, etc., think twice. Do you really understand what this program or app is going to do with the information you are providing? Like the coronavirus we need to be very careful about the things that we virtually touch and what we allow to touch us!

See below for two recent articles from the Federal Trade Commission about coronavirus scams, or go to www.ftc.gov, or type "FTC coronavirus scams" into your browser's search bar.
