How to Spot and Avoid a Tech Support Scam

Stay alert! Tech support scams are rising in popularity and scammers will use different tactics to trick you and to make themselves seem legitimate. Knowing their tactics will help you avoid falling victim to their scam and losing your hard-earned money.

If you have been in contact with someone online or over the phone and they have told you to withdraw cash, send a wire transfer, purchase gift cards, or send cryptocurrency, do not complete the transaction and stop all communication with them. Scammers will instruct you not to tell your family or the credit union what you are doing; this is a red flag. Scammers will offer to do a three-way call with Allegius to make their request seem legitimate. The caller does not call Allegius and instead calls another scammer to pose as a credit union employee. In order to protect yourself, ensure you are the one calling Allegius at 800-537-8386.

Phone Calls | Scammers will often call and pretend to be a technician from a well-known company. They will say they have found a problem with your computer and will ask you to give them remote access in order to fix it. They then will try and make you pay to fix a problem that does not exist. If you get a phone call you did not expect from someone who says there is a problem with your computer, hang up.

Pop-Ups | Scammers may try to trick you into using a pop-up window on your computer screen. It may look like an error message from your operating system or a notification from your antivirus software. It may even use the company's official logo. The message will warn you about a security issue or expiring software coverage and tell you to call a phone number to get help. If you receive this kind of pop-up, do not call the number. Real security warnings will never ask you to call a phone number.

What To Do if a Scammer Has Your Information

- Change your password (If you use this password for other accounts be sure to change them too)
- Uninstall any applications or programs they have asked you to install
- Run a full scan with an antivirus program and remove any problems it detects
- If you are not tech-savvy, take your device to a trusted, local technician for them to repair

Kitty Korner

We are assisting one of our select employee groups, the Independent Cat Society (ICS), to find homes for loving kittens and cats. We want to help our members add that extra amount of love into the family as only a cat or kitten can do.

Meet Mistoffelees and Rum Tum Tugger

These cuddly kitties are a bonded pair! Both Mistoffelees and Rum Tum Tugger are one-year young. These boys are friendly, playful and would love a home that offers snuggles, feather toys, a window or patio for bird watching, and tasty treats! These two fabulous felines grew up around dogs, so for anyone that has cat-friendly dogs, they would adapt easily to them.

Additional details about Mistoffelees and Rum Tum Tugger, along with other potential friends are available at Independent Cat Society's website and Facebook page. Their facility is located at 4061 S. County Line Rd., Westville, IN. They are still asking for appointments on Saturdays from 10:00 a.m. to 4:00 p.m. and Sundays from 12:00 p.m. to 4:00 p.m.

**All applications are subject to a review process. The review helps find the best homes for the cats and gives you and your family a chance to carefully think about your decision.*

Every week, Allegius also posts a picture and profile for the "adopt a friend Friday" on our Facebook page.
